

Admin Service Detail Page — UI Vocabulary

Reference for naming regions when requesting design adjustments. Source page: `/admin/services/[id]`. Sizes are approximate, derived from Tailwind classes (default scale: 1 unit = 4 px).

Layout regions (top → bottom)

Region name	What it is	Where on the page	Size / spacing
Sidebar	Dark navy fixed left rail with portal title, nav, user footer.	Left edge, full height.	Width ≈ 224 px (w-56).
Portal title	App brand: <i>Mauritius Offshore Client Portal</i> .	Top of sidebar.	Two-line wrap; padding ≈ 16 px.
Primary nav	Dashboard, Services, Profiles, Queue.	Upper sidebar group.	Item height ≈ 36 px.
Settings nav group	“SETTINGS” label + Templates, Verification Rules, Document Types, Due Diligence, Role Requirements, Knowledge Base, Workflow.	Lower sidebar group.	Items as above; group label uppercase 10 px.
User footer	Jane Doe / Administrator + logout.	Pinned bottom of sidebar.	Height ≈ 56 px.
Service title row	Service number (“GBC-0002”) + service template name (“Global Business Corporation”) + description.	Top of main content.	H1 = 20 px bold; subtitle 14 px.
Stage strip	Salesforce-style chevron path: Draft ■ In Progress ■ Submitted ■ In Review ■ Verification ■ Approved.	Below the title row, full width of main column.	Height = 36 px (h-9); 6 segments stretched flex-1.
Step indicator	Numbered breadcrumb: 1. Company Setup ■ 2. Financial ■ 3. Banking ... with review-status pills.	Between the stage strip and the first section card.	Text 14 px; row height ≈ 32 px; chevron 14 px.
Section card	Bordered Card for each step section (Company Setup, Financial, Banking, People & KYC, Documents). Contains the section header pill + collapsible body.	Main content, left column, stacked vertically with 16 px gap.	Border 1 px gray-900; outer padding px-5 py-4 = 20 / 16 px.
Section header pill	Blue (#06629c) bar inside the section card. Holds title + progress + % + status dot + Show/Hide.	Top of every section card.	Padding px-3 py-1 = 12 / 4 px; text 14 px white; rounded 6 px.
Mini progress bar	Thin horizontal bar inside the header pill, fills RAG colour by %.	Right cluster of the section header pill.	96 × 6 px (w-24 h-1.5); hidden below lg.
Status dot + label	Coloured circle (●) + “Complete” / “Partial” / “Incomplete” (or override).	Right of % number in the section header pill.	Dot 8 × 8 px (h-2 w-2); label 12 px.
Show / Hide chevron	Collapsible toggle for the section body.	Far right of the section header pill.	14 × 14 px (h-3.5 w-3.5).
Section review badge	Approved / Flagged / Not reviewed pill.	Sibling to the right of the section card (inside row today; moves outside in B-088).	Padding ≈ 4 / 6 px; text 11 px.
Section review button	Outlined “Review” button opening the inline review dialog.	Immediately right of the review badge.	Height ≈ 28 px; padding 6 / 10 px.
Section body	Collapsible content inside the section card (form fields, doc rows, profile pills, etc.).	Directly below the section header pill when expanded.	Padding pt-3 pb-4 px-5 = 12 / 16 / 20 px; top border 1 px.
Add-role action chips	Outlined pill buttons: + Add Director, + Add Shareholder, + Add UBO.	Inside the People & KYC section body, above the profile list.	Height ≈ 32 px; rounded 999 px (pill).
Profile pill	Light-blue (#7dbbe3) row representing a person/organisation profile: icon + name + role chip + KYC% + Show/Hide.	Inside the People & KYC section body.	Padding ≈ 12 / 4 px; rounded 6 px.

Region name	What it is	Where on the page	Size / spacing
Profile quick-action chips	Portal access / Request KYC / Manage chips under the profile pill.	Directly below the profile pill on the row's background.	Height ≈ 28 px.
Right rail	Sticky-ish column for service-wide info: status, owner, milestones, audit trail.	Right of the main column on lg+; stacks below on small screens.	Width = 1/3 of main grid (lg: col-span-1).
Status panel	"STATUS" label + current state badge + select to change status.	Top of the right rail.	Card padding 16 px.
Account Service Owner panel	Owner select / — Unassigned —.	Right rail, below status.	Card padding 16 px.
Milestones panel	Collapsible. Items: LOE Received, Invoice Sent, Payment Received with date inputs.	Right rail, mid.	Header height ≈ 44 px; item row ≈ 36 px.
Milestone item	Icon + label + date input (or empty state).	Row inside the Milestones panel.	Date input width ≈ 130 px.
Audit Trail panel	Collapsible. Filters (By user / Action) + chronological event list.	Right rail, bottom.	Card padding 16 px.

Tip — how to request an adjustment. Name the region first, then the dimension you want to change, then the direction. e.g. "Make the section header pill ~25 % thicker on desktop", or "Reduce the gap between section cards from 16 px to 8 px".

Quick size cheat sheet

Tailwind uses a `1 unit = 4 px` spacing scale (`py-1` = 4 px each side; `py-4` = 16 px each side). Text sizes use the default `text-xs` 12 px / `text-sm` 14 px / `text-base` 16 px scale. All sizes below are the live values rendered on desktop (lg breakpoint).

Element	Tailwind classes (key)	Pixel size
Page outer column gap	<code>gap-6</code>	24 px
Section card stack gap	<code>space-y-4</code>	16 px
Section card outer row padding	<code>px-5 py-4</code>	20 / 16 px
Section header pill padding	<code>px-3 py-1</code>	12 / 4 px
Section header pill text	<code>text-sm font-medium</code>	14 px / 500 wt
Mini progress bar	<code>w-24 h-1.5</code>	96 × 6 px
Status dot	<code>h-2 w-2</code>	8 × 8 px
Show / Hide chevron	<code>h-3.5 w-3.5</code>	14 × 14 px
Stage strip (chevron banner)	<code>h-9</code> (SVG)	36 px tall, segments stretch
Step indicator chevron sep.	<code>size-3.5</code>	14 px
Section body padding	<code>pt-3 pb-4 px-5</code>	12 / 16 / 20 px
Profile pill padding	<code>px-3 py-1</code>	12 / 4 px
Right rail panel padding	<code>p-4</code> (CardContent default)	16 px
Sidebar width	<code>w-56</code> (approx)	224 px

Useful phrasing templates

- **Resize an element** — “Change the *section header pill* padding from `py-1` to `py-3` (4 px → 12 px each side) on desktop. Mobile unchanged.”
- **Adjust spacing** — “Reduce the *section card stack gap* from 16 px to 8 px so the page feels denser.”
- **Reposition** — “Move the *section review badge + button* outside the section card so they sit on the page background to the right.”
- **Re-style without resize** — “Keep the *section header pill* size; change its background to brand-navy and the title to white.”
